

# Camp Until A Cure

At the Diabetes Youth Foundation Camp – Noblesville, IN

## 2009 Check-in and Check-out & Camp Information

The Diabetes Youth Foundation of Indiana is eagerly awaiting the arrival of your child. The staff will undergo an extensive training program to ensure that your child's stay is both enjoyable and safe. We are well aware of the significance of the trust you have placed in us by enrolling your child in our camping program. All of us at the Diabetes Youth Foundation's Camp for Children with Diabetes will do our very best to show you that this trust was well placed. We feel that each counselor, program and medical staff member must be comfortable with diabetes and prepared for any potential problem -- just as you are. Please relax and enjoy the time that your child spends with us. We're confident your child will have a great time while learning more about managing diabetes.

After checking in and meeting your med staff, then a counselor will assist you to your cabin.

### Mail

Getting mail at camp is exciting for any child. It takes a few days for mail to get to us, so mail sent after the last Wednesday of your child's session will probably not arrive in time. Use the following address, please: CHILD'S NAME

C/O The Camp for Kids with Diabetes  
5050 East 211<sup>th</sup> Street.  
Noblesville, IN 46062

Don't be surprised if you don't hear from your child during his or her stay at camp. This often means that things are going well. We will encourage letters home.

### Phone

Due to limited numbers of phone lines, we do not permit children to make routine calls. Also, we have found that calls home usually result in homesickness. If an emergency should arise, the camp number is 317-877-1721 or the DYF office at 317-224-0190.

We strongly encourage everyone to attend this important meeting, since the children will be involved in the program. All counselors and medical staff will also participate in this meeting, therefore they will not be available to check out campers until after the parents' meeting. We are very proud of our program at the Camp for Kids with Diabetes, and look forward to this opportunity to tell you what your child has experienced during his or her stay. Important information about your child's diabetes will be included in the check-out material, as well. It is essential that you pick up medical and dietary information to ensure a smooth transition back to home activity.

Camp is growing close! We eagerly await your child's arrival. If any questions come up prior to camp, feel free to call Dave Dozier at 317-224-0190
